Summary :

Innovative and results-driven Web/ React Native Developer with strong expertise in building **scalable, cross-platform mobile applications** for **iOS and Android**. Proficient in **React Native, Expo, JavaScript (ES6+), and TypeScript**, with hands-on experience integrating **Firebase, REST APIs, GraphQL**, and third-party services. Skilled in **UI/UX implementation, state management (Redux Toolkit), and mobile performance optimization**. Adept at delivering **high-quality, maintainable, and user-focused applications** that align with business objectives and improve user engagement.

Education :

Bachelor of Computer Applications | BMS College (Bangalore City University) | 2020 – 2023
Professional Certificate Program in Blockchain | IIT Kanpur | Jan 2021 - Apr 2022

Languages Known :

English, French, Kannada, Hindi, Tamil, Telugu, Malyalam

Core Skills :

- **Mobile App Development:** React Native, Expo SDK, iOS & Android Deployment, OTA Updates .
- **Programming Languages:** JavaScript (ES6+), Typescript, Solidity .
- **Backend & Databases:** Firebase, REST API, GraphQL, MongoDB, Convex, Supabase .
- **Tools & Platforms:** Git, GitHub, VS Code, Android Studio, Xcode, Postman .
- **Cloud Platform:** Amazon Web Services (AWS).
- **Advanced Features:** Push Notifications, In-App Purchases, Offline Storage, Payment Gateways (**Razorpay, Stripe, InstaMojo**), Analytics Integration, App Store & Play Store Publishing, On-The-Air(OTA) Updates, Blockchain Integration .
- **UI/UX Design:** Mobile-First Design, Responsive Layouts, Material UI, Tailwind CSS, Framer Motion .
- **Testing & Debugging:** Jest, React Native Testing Library, Debugging Tools, Crashlytics .

Professional Experience :

Full Stack Developer [Freelance] | Source One | Sep 2024 – Present

- Managed and improved SourceOne's full-stack job-search platform, including dashboards for applications, employee data, and recruiter workflows.
- Integrated Firebase (**Auth, Firestore, Storage**) to securely manage employee records, applications, resumes, and real-time data synchronization.
- Enhanced UI/UX with responsive layouts, optimized components, favicons, and refined headers/footers for a smoother user experience.

Full Stack App/Web Developer | ISKCON Bangalore | July 2024 – Jan 2025

- Built **SEO-optimized**, responsive full-stack websites that increased overall user engagement **by 30%**.
- Integrated **Firebase Authentication, Firestore, and Cloud Functions** to ensure secure, large-scale data processing and real-time operations.
- Developed event platforms (**Janmashtami, Deepotsava**) capable of handling thousands of registrations with seamless real-time updates.
- Reduced website **load time by 40%** through **performance optimization, efficient caching, and lazy-loading strategies**.

React Native Developer [Freelance] | Skill Box | Jan 2021 – July 2022

- Designed, developed, and deployed **multi-platform** applications using **Expo**.
- Implemented **Firebase Auth, Cloud Function, Push notifications**, and real-time updates .
- Integrated **Payment gateway** and advance analytics tracking for actionable insights .
- Optimized app performance, reducing crash rates by **25%** and improving responsiveness.

Front-end Developer [Freelance] | HealthKart | Jan 2021 – April 2023

- Built **A+ content product pages** for platforms like **Amazon, Myntra, and Flipkart** improving conversion rates.
- Designed **responsive, mobile-friendly layouts** using **HTML5, CSS3, and JavaScript**.
- Enhanced brand presence through **visual storytelling** and **UI optimization**.

Highlighted Projects :

- **SkillBox** – Built a **multi-platform mobile application** for service **scheduling, secure payment processing and push notifications**. Successfully deployed to [Apple App Store](#) and [Google Play Store](#).
- **ISKCON Pilgrimage** – **Native app** to Travel Holy places of pilgrimage with ease. Well planned itinerary; best selected hotels/accommodations; food & of course-ISKCON guide. Successfully deployed to [Apple App Store](#) and [Google Play Store](#).
- **Brihat mridanga** – Built a **multi-platform mobile application** for service which is a platforms for Srila Prabhupada's Book distribution. Successfully deployed to [Apple App Store](#) and [Google Play Store](#).
- **Smart Budget Manager** – Developed a finance tracking app using **React Native & Expo**, featuring **real-time updates, Firebase integration, and offline storage** for seamless cross-platform performance. [GitHub Link](#)
- **Huddle (A Social Media App)** – a complete **cross-platform social media app** using React Native with smooth performance on both **Android and iOS**. Implemented core social features—**posting, liking, commenting, profiles, and user feeds** - for a fully interactive experience. [Github Link](#)
- **Expense Splitter** – Created a **Native app** that allows users to add group expenses, split bills, track who owes whom, and settle balances easily. Bulit with a clean **UI** and **real time data management** to simplify shared expenses between Friends, Roommates, or Team . [Github Link](#)
- **HypeKart** – Built a **Native full-featured e-commerce application** with user authentication, product management, cart , orders, and secure payments. Built using **clerk** for authentication, **Supabase** for database and backend services, and **Razorpay** for payment integration. [Github Link](#)
